7. CHALLENGES

Kendriya Bhandar was established in 1963 as a Welfare Project and since then, it has been functioning as such almost on "no profit and no loss" concept basis. Rapid changes in technology, policies, market dynamics, retailing strategies have direct bearing on the sales of Kendriya Bhandar. Mushrooming organized/un-organized retail chains/stores coming up in market besides posse of hawkers loitering on every road/mohalla with open food grains are posing direct challenge. So far, retailing activities are being managed as welfare activity in national interest through cross subsidization i.e. running the retail set up by earning from other business activities.

8. EFFORTS/ STRATEGIC TIE-UPS FOR BUSINESS EXPANSION

All out efforts are made to keep high standards of service, which are being extended, to the customers by the Society. Kendriya Bhandar is fully conscious of the confidence reposed by its customers, by the Government and its shareholders. Our tie-up with many organizations like Telangana Govt., HAFED, CSL etc. are continuing and numbers of proposals are under active consideration at the level of different State Governments/ organizations/FI/NGOs/Investors. In order to broaden outreach/connect to masses, we tied up with Prasar Bharati and FSSAI for mass communication. FSSAI has already relayed advertisement on FM Radio about availability of healthy/nutritious food products in Kendriya Bhandar. Efforts are on for tie-up with other places/sectors. We are also forming consortium with other co-operatives working in different fields and also with PSUs to work together. We have, for the first time, started undertaking business of export/import.

9. SERVICE

- Kendriya Bhandar became life-line for service of our members and masses during Covid phase. Kendriya Bhandar has sold Bharat Atta, Bharat Dal (Chana Dal), Bharat Chawal, Onions and Tomatoes during the phase of crisis of these items during the period starting from February, 2023 till date.
